Winter 2024

Happy holidays!

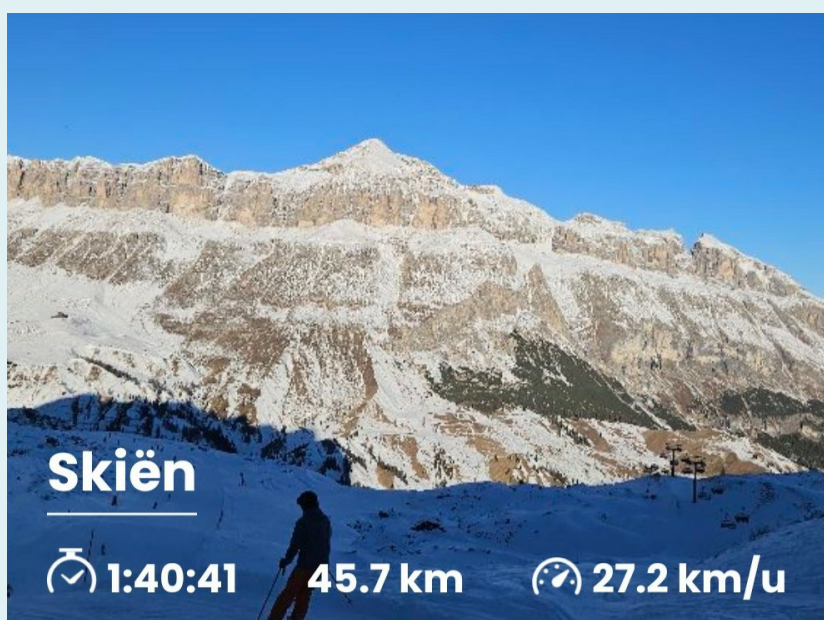

From BergXperience

Happy Holidays!

BergXperience wishes everyone a warm and cozy Christmas and a magnificent 2025!

Treat yourself (or someone else) to a ski hut tour in 2025. If you book before January 5, you will receive a **10% discount as a Christmas gift**. [View the offer here!](#)

Slopes are open

From the beginning of December, all slopes in the Dolomiti Superski area will open one by one. This week I already skied the Sella Ronda. Fantastic conditions and still nice and quiet! At the end of December, all slopes will be open and the ski hut tours can start. There is still room on different dates. View [the offer here](#).

Skihuttour as a short break

Are you ready for a holiday, but is a week a bit too long? Go for a [4-day ski hut tour](#). Such a tour has so much variation, it feels like you are away for more than a week. Because we start from our B&B in Forno di Zoldo, we are easy to reach by plane. Fly to Venice and from there it is another 1,5 hours to reach us

Alta Via 1

Although winter has yet to begin, we are already busy with summerbookings. For different groups, we booked the entire Alta Via 1. Due to the popularity of the AV1, the northern part is almost fully booked now for the whole summerseason, but there are still plenty of options for [the southern part](#). An additional advantage: in our opinion, the southern part is more beautiful than the northern part. And a funny detail: it seems that there are still some possibilities in August.

Tailor made hut-to-hut tours

Tailor-made hut-to-hut tours is actually the specialization of BergXperience: how many days do you want to hike and how do you estimate your level? Based on that, I will make you a nice tour where you will hike some legs of the alta via 1, but also beautiful, very quiet itineraries. [Ask about the possibilities](#). Or check the [website](#) for inspiration.

With children

Especially for families, BergXperience also offers hut-to-hut tours that are suitable for children. Actually, that is already in the tailor made tours. Several families have already hiked a tour with children ranging in age from 7 – 16 years. Some families will start their adventure coming summer. Children love the adventure of hiking in the mountains for a few days and spending the night in a mountain hut on top of the mountain. Are you considering hiking with your children? [Inquire about the possibilities](#).
